

FABIAN ANDRES ALMANZA PULGAR

Proactive Information Systems Analysis and Development Technologist & Full-Stack Developer. I offer solid experience in the agricultural sector as a Technical Assistant at García Gómez Agroinversiones S.A., where I managed inventory, shipping/receiving, petty cash, and operations personnel support. I combine administrative skills with advanced technical proficiency in Excel, React, Python (FastAPI), and Java (Spring Boot). Committed to process optimization, efficient analysis, and building innovative software solutions that drive organizational value.

WORK EXPERIENCE

Financial Loan & Payment Automation Web App (Full-Stack)

Inversiones Anyelo Sac

Lima, Perú

04/2025 – 04/2026

- Designed and developed a comprehensive web application to automate loan records and payment tracking for a financial institution. I implemented a robust backend architecture using Java with Spring Boot to guarantee transaction security and data integrity, paired with React to deliver an intuitive, dynamic user interface. Responsible for the end-to-end database design, crafting efficient REST APIs, and implementing the core business logic for real-time quota calculations and financial statements.

Freelance Full-Stack Developer

Independent

Remote, Colombia

04/2026 – 05/2026

- Architected and developed a scalable full-stack SaaS platform designed to support multiple restaurants simultaneously. The system features real-time synchronization across specialized interfaces for kitchen staff, cashiers, and administrators to optimize operational workflows. I engineered a comprehensive Admin Dashboard with advanced business logic for sales tracking, expense management, cash drawer auditing, and catalog configuration. Additionally, I developed a flexible digital menu system that includes a public general menu for external customers and a table-specific menu with unique identifiers to significantly accelerate order-to-table tracking.

EDUCATION

Technologist - Associate Degree in Information Systems Analysis and Developmen

Servicio Nacional de Aprendizaje SENA

Tuluá, Colombia
